CRUISES

INTRODUCING OUR BRAND NEW RIVER CRUISER
THE GENTLEMAN

NEW CHALLENGE

The roots of our in-land shipping family business go all the way back to 1987. In The Netherlands, Van Loon Shipping has grown into a successful company with six inland tankers on the waters – but something else was going on, too. Much like ourselves – co-founders Arjan and Willeke van Loon – our children Niels, Bart and Jasmijn also fell in love with sailing on the waters. An experience we would like to share with others.

That is the foundation Van Loon Cruises was built on. Offering people another way of finding out what you can see from the water and what you can experience on the shore. Since this is a new adventure for us, it will be an out-of-the-box experience to many people.

One thing was for certain: we had to have a river cruiser that reflects a different way of doing things – a challenging and ultra-modern ship with a sporty look that would entice people to embark on an adventure.

The Gentleman is a river cruiser that – contrary to other ships – was designed from the inside out. It is fitted with all the luxury any guest could ask for, with a sporty, yacht-like appearance.

We will be adding The Gentleman to our fleet as of 2024 – and we will provide the technical and nautical staff. Depending on the tour operator's requirements, we can also provide the hotel management.

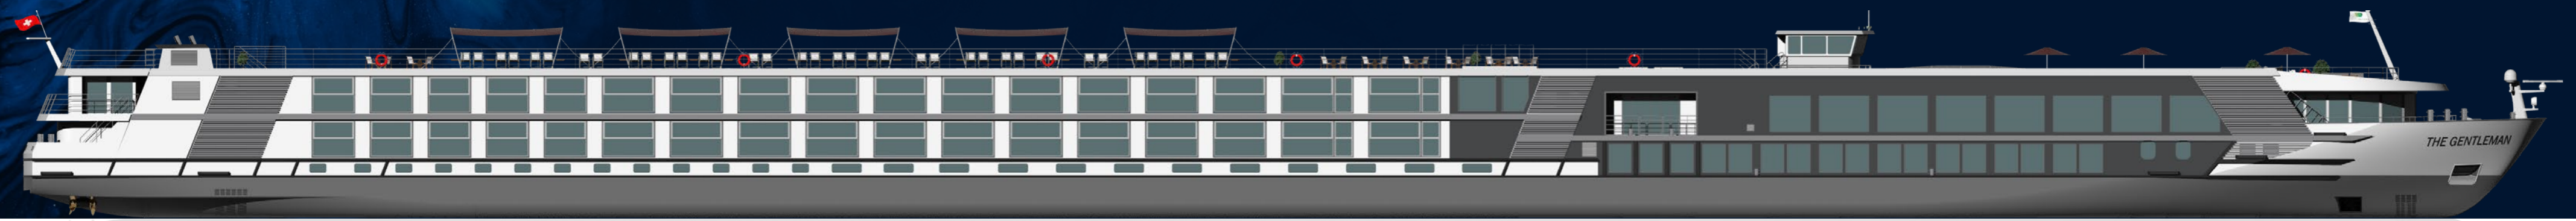

“WE ARE SURE THAT WE CAN DO IT,
AS A FAMILY AND TOGETHER WITH OUR
EXPERIENCED STAFF MEMBERS.”

INTRODUCING

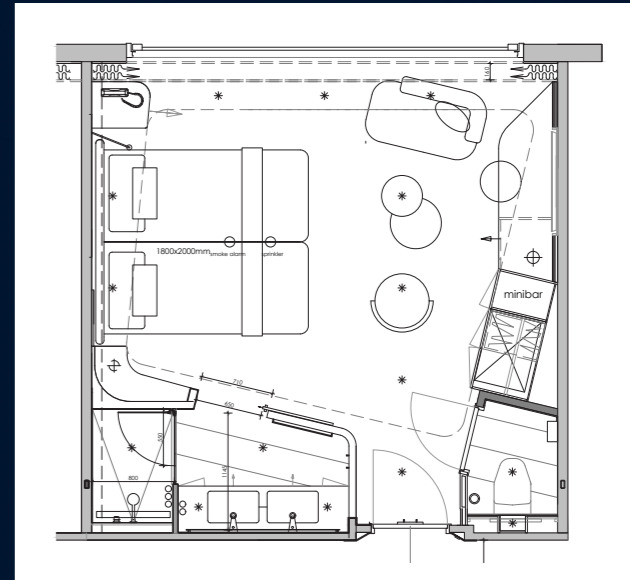

THE GENTLEMAN, A BRAND-NEW RIVER
CRUISER FOR 172 PASSENGERS WITH THE
APPEARANCE OF A YACHT

NO CONCESSIONS

Where naval architects often work from the inside out, an interior with a ship around it, at Van Loon Cruises Suisse AG we work exactly the other way around. The Gentleman streamlined shape is leading, giving the ship an elegant and dynamic yacht appearance. As a passenger you do not have to make any concessions. The set-up is such that you can enjoy every luxury on board.

STATE ROOMS

TRANQUILITY AND WARMTH

Creating designs with tranquility and warmth are important in spaces where people come together. Natural fabrics in calm colours and in different textures contribute to a contemporary balance. Large art walls with great memory value give intimacy and a nice atmosphere at any time of the day.

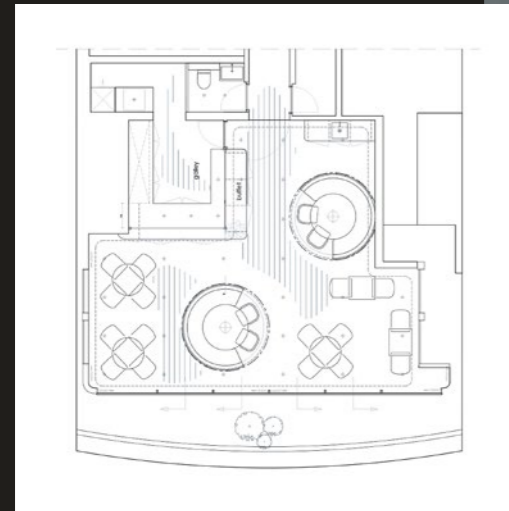

LOUNGE

LUXURIOUS ATMOSPHERE

The contemporary balanced design is filled with elements of surprise. The interior parts are sophisticated and reveal aesthetic language in the choice of exclusive materials such as; wood, marble, glass, bronze metal and leather. Matching handcrafted accessories give the lounge an exiting and luxurious atmosphere.

To achieve a natural feeling, round shapes and flowing lines are used. Curves break through straight and symmetrical lines. The playful effect creates an attractive and ergonomic interior. Biophilic design is bringing nature into our interior. By bringing the outdoors in, a calming atmosphere is created.

TRULY REMARKABLE EXPERIENCE

In conclusion, The Gentleman offers a truly remarkable river cruising experience. Its modern yacht-like design, use of premium materials, and attention to detail make it an enticing choice for travelers seeking adventure and luxury. The ability to open floor-to-ceiling windows on the middle and upper decks adds to the immersive experience of taking in the breathtaking scenery. Furthermore, the ship's expansive sun deck caters to both relaxation and active pursuits.

MEMORABLE JOURNEY

The onboard amenities leave nothing to be desired, with a spacious and elegant panorama salon, a luxurious lounge at the stern, a stylish restaurant, a welcoming hotel reception, a dedicated tour leader's desk, and the convenience of an elevator connecting all decks. The Gentleman promises not just a cruise, but a lavish and memorable journey along the river.
